Work Experience

ARK TECH INNOVATION PVT LTD	Product Operations Analyst	July 2024 – Present
ARK INFO SOLUTIONS PVT LTD	Customer Support Engineer	May 2020 – July 2024

Product Operations Analyst

ARK Tech Innovation Private Ltd. | Apr 2026 – Present

- Collaborated with Product, Engineering, QA, and Customer Success teams to gather requirements and deliver SaaS product enhancements.
- Managed Business Analysis, Requirement Gathering, User Stories, UAT, Functional Testing, Regression Testing, Release Management, and Product Validation.
- Analysed customer feedback, product performance, and KPIs to drive Product Analytics and continuous process improvement.
- Tracked defects, performed Root Cause Analysis (RCA), and managed the defect lifecycle using Jira.
- Created BRDs, FRDs, SOPs, Release Notes, and product documentation to support product lifecycle management.
- Developed operational reports and dashboards using SQL and Advanced Excel for data-driven decision-making.
- Participated in Agile/Scrum ceremonies, sprint planning, backlog refinement, and stakeholder communication.
- Improved product quality, optimised workflows, and supported successful product releases through cross-functional collaboration.

Product Support Analyst

ARK Tech Innovation Private Ltd. | Apr 2025 – Apr 2026

- Analysed customer issues, usage patterns, and feedback to identify product gaps and recommend feature enhancements
- Converted business and user needs into clear product requirements, user stories, and acceptance criteria
- Prepare and maintain Product Requirement Documents (PRDs), User Case Documents (UCDs), and workflow diagrams to support product development and stakeholder alignment.

- Partnered with UX teams to improve workflows, navigation, and overall usability
- Worked with engineering during sprint cycles to clarify requirements and ensure accurate implementation
- Performed manual testing, regression testing, and UAT validation before releases
- Used SQL queries to validate backend data and debug data-related issues

Key Impact:

- Reduced production issues by identifying critical defects during staging and pre-release validation
- Improved feature clarity, reducing back-and-forth during development cycles

Customer Support Engineer

ARK Tech Innovation Private Ltd. | Jul 2024 – Apr 2025

- Managed end-to-end issue resolution for SaaS platform users across multiple clients
- Identified recurring issues and collaborated with product teams to address root causes
- Contributed to QA by validating bug fixes and supporting regression cycles
- Documented workflows, issue patterns, and solutions for internal knowledge sharing

Key Impact:

- Improved issue resolution efficiency and contributed to better product stability
- Promoted internally to Product Support Analyst role

Case Study 1: Improving User Experience in an overall KMS/LMS Platform

Case Study 2: Reducing Production Issues via QA & Data Validation

Customer Support Engineer

ARK Infosolutions Private Ltd. | Apr 2022 – Jun 2024

- Delivered technical support via chat, email, and calls while maintaining SLA compliance
- Diagnosed platform issues and provided timely resolutions
- Gathered user feedback and shared actionable insights with product teams
- Assisted in onboarding and product adoption for new users

Faculty Member

ARK Infosolutions Private Ltd. | May 2020 – Apr 2022

- Delivered training in coding, 3D design, and digital tools
- Designed curriculum and assessments aligned with learning outcomes
- Built strong communication and problem-solving skills, now applied in product collaboration

PROJECT EXPERIENCE

KMS / LMS Platform (SaaS | 150+ Schools)

- Analysed user behaviour and support data to identify feature gaps and usability issues
- Created test cases, user scenarios, and QA documentation for structured validation
- Collaborated with product and UX teams to improve workflows and user journeys
- Performed end-to-end testing (functional + regression) to ensure stable releases
- Used SQL to validate data accuracy and troubleshoot backend issues
- Led onboarding sessions, product demos, and user training

Impact:

- Improved release quality and reduced post-release defects
 - Enhanced user experience through continuous usability improvements
